**Fitting Instructions - Broken down into 9x Simple Steps**
**Step 1**

Slatwall is delivered normally in a single box

**Step 2**

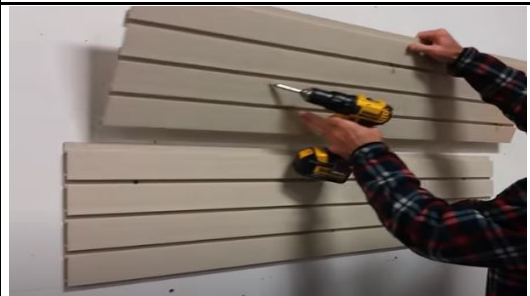

1. Wall preparation is vital
2. If you have a ply board wall (perfect)
3. If you have a brick wall, add wooden battens

**Step 3**

1. You will have 4x Panels per set
2. Now add a level board underneath panel 2
3. Now secure PANEL 2 - with 6x screws
4. Adding Panel 2 first, ensures a perfect level

**Step 4**

1. Once panel 2 is now secure
2. Now remove the levelling board
3. Now slot panel 1 (top panel) onto panel 2
4. Now secure this, using 6x screws

**Step 5**

1. At this point you should now have...
2. Two panels secured to your wall
3. Now go to = Step 6

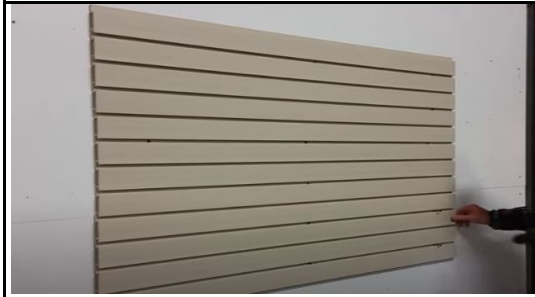

**Step 6**

1. Now add the 3rd panel underneath panel 2

**Fitting Instructions - Continued****Step 7**

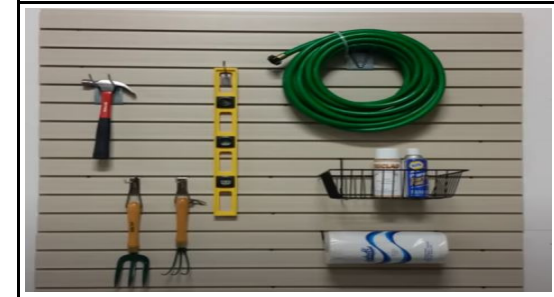

1. At this point you should now have...
2. Three panels secured to your wall
3. Now go to = Step 8

**Step 8**

1. Now add the 4th panel underneath panel 3

**Step 9**

1. Now add your slatwall hook-On's (If supplied)

**Step 10****Step 10 - Covers Slatwall Accessories**
