Options

All shown options are examples of what will be supplied with each listed option and price on our website

However

We understand that clients may want a different set up

IF this is the case

Please do not hesitate in calling us as we can design the perfect system to reflect your own business needs

Tel: 0845 1080047 or 01244 371443

Fitting Instructions - Step 1

- 1 Decide where your display will start - (We would advise working left to right)
- 2 Attach one of the top connectors to your top windowsill or ceiling
- 3 **Warning** = Top connectors supports all the weight so, ensure a secure fitting, use your own unique screws if necessary!
- 4 Thread supplied cable through the second section and screw bass connector tightly to the cable, screw this to the top connector
- 5 Thread the Single Grippers onto the bottom section of the cable, repeat for all necessary single grippers
- 6 [Moving the Break Gripper](#) - hold down the protruding section (releases break) go to desired height and let go - that's it
- 7 [Moving the Screw Gripper](#) - unscrew, move to desired height, tighten - that's it

Fitting Instructions - Step 2

- 1 Allowing for a gap for the acrylic and the grippers, your next cable should be **27cms**
- 2 Repeat Step 1 - however; replace Single grippers with double grippers
- 3 *At this point you should have two cables hanging and single and double grippers attached*
- 4 Pending how many columns you are adding
- 5 Repeat Step 1 - and Step 2 until you add the final cable
- 6 Final cable should hold single grippers!
- 7 *At this point you should have all your desired cables hanging and all your single and double grippers attached!*

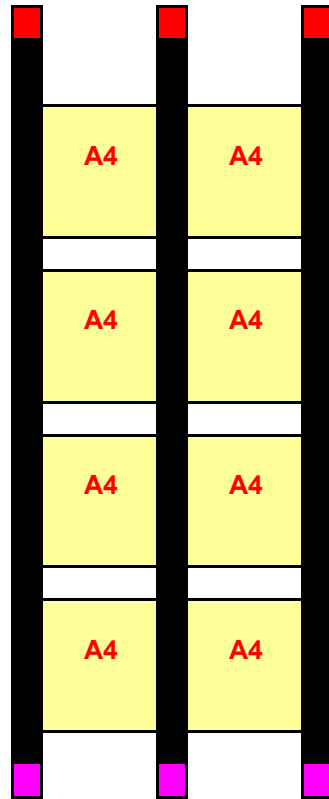

Fitting Instructions - Step 3

- 1 Acrylics - Decide where the first acrylic wants to be attached
- 2 Move single and double grippers up the cable and attach to acrylic - normally 3cms / 30mm from each corner
- 3 At this point your acrylic should be attached in four corners and onto two cables
- 4 Repeat this process left to right ensuring acrylics are level all the way across the display
- 5 2nd row - we recommend a gap between acrylics of **5cms**
- 6 Repeat this process for the 2nd row and keep repeating for all desired / ordered rows
- 7 Bottom connector, attach to the floor / bottom windowsill - screw, and reattach the top section
- 8 Cable cutting - the bottom connector is spring loaded, just place cable into the hole and let go for the brake to grab the cable
- 9 Cable cutting - Cut the excess away BUT leave 20cms - nibble at this, to the desired length then cut and add to the connector - That's it

Congratulations you have now 'Completed your Display' - By the way, the display can always be extended 0845 1080047

Option 1

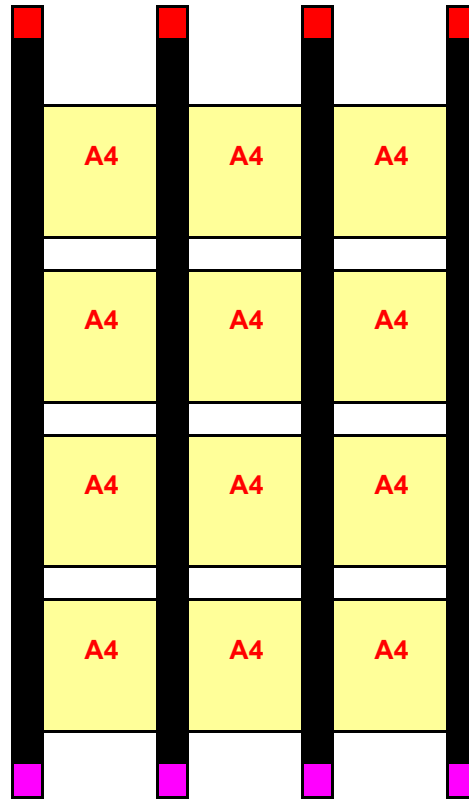

- 8 x 4A Acrylics
- 3 x Cables, 4M lengths
- 16 x Single Grippers
- 8 x Double Grippers
- 3 x Top Holders
- 3 x Bottom Holders

Length 54cms

Option 2

- 12 x 4A Acrylics
- 4 x Cables, 4M lengths
- 16 x Single Grippers
- 16 x Double Grippers
- 4 x Top Holders
- 4 x Bottom Holders

Length 81cms

Option 3

- 16 x 4A Acrylics
- 5 x Cables, 4M lengths
- 16 x Single Grippers
- 24 x Double Grippers
- 5 x Top Holders
- 5 x Bottom Holders

Length 108cms

Option 4

- 20 x 4A Acrylics
- 6 x Cables, 4M lengths
- 16 x Single Grippers
- 32 x Double Grippers
- 6 x Top Holders
- 6 x Bottom Holders

Option 5

- 24 x 4A Acrylics
- 7 x Cables, 4M lengths
- 16 x Single Grippers
- 40 x Double Grippers
- 7 x Top Holders
- 7 x Bottom Holders

Option 6

- 28 x 4A Acrylics
- 8 x Cables, 4M lengths
- 16 x Single Grippers
- 48 x Double Grippers
- 8 x Top Holders
- 8 x Bottom Holders
