

Supplying Artwork

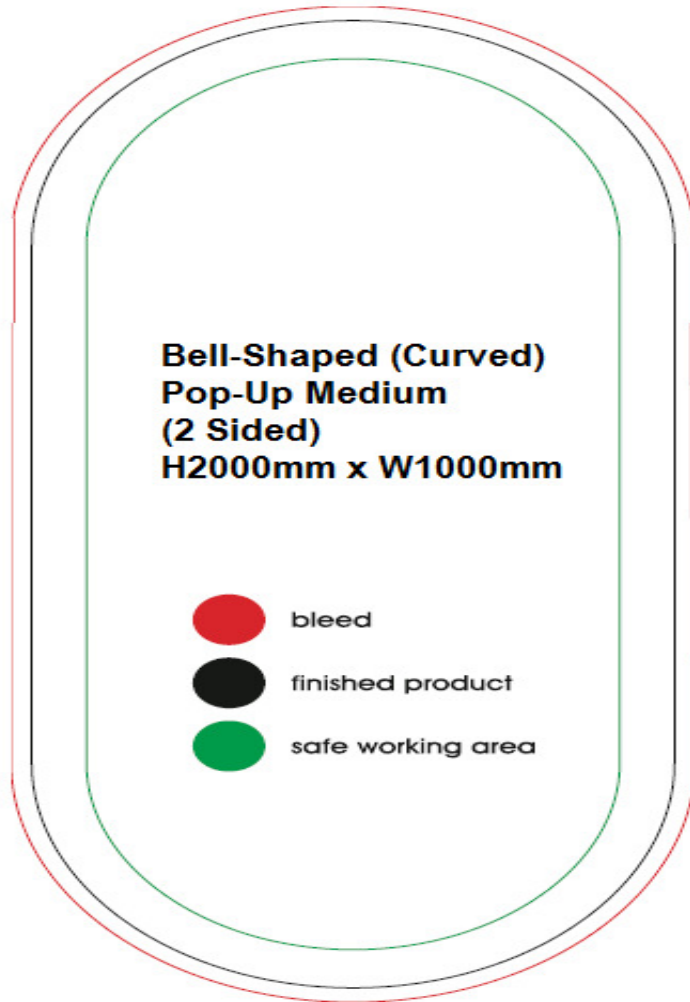

- | | |
|---|--|
| 1 | Please follow the templates listed on the next pages |
| 2 | The key requirements are that your artwork is supplied as a PDF on a template, CMYK, 75 dpi with fonts outlined. |
| 3 | Remember to check your artwork size and any bleed requirements first. |
| 4 | Do NOT use any overprint settings in your artwork. |
| 5 | Do NOT mix RGB and CMYK elements in the same artwork. |
| 6 | If a particular pantone colour or font style are important - Clearly Mention the pantone code(s) + font names! |
| 7 | Artwork can be sent to us - see website page - download link has been supplied |
| 8 | Important - Artwork is only acceptable, once we have approved, we will advise if we have concerns! |

Key - Artwork is required to the end of the 'Bleed Line' however; printed to the 'Black Line'
So - go over the 'Black Line' with colour only - not vital literature details
